

## Process of Ruqyah at Jinn Catching Ruqyah Services

### Diagnosis

This is when one of our Raqis will ask you certain Questions in order to determine whether you are suffering from a spiritual or Medical affliction, Some of the Questions that will be asked are the following:

- past treatment
- medical & psychiatric history
- family history
- thoughts and whispers
- dreams/nightmares
- bodily pain
- aggressive outbreaks
- emotional & mental state
- marriage & relationships

There is no need to feel embarrassed, our Raqis are used to dealing with many cases. It's their professional job and they won't judge you.

### Ruqyah

During the Ruqyah, the Raqi may do the following:

- recite
- ask you and your chaperone to recite
- blow recited water on you
- tap different parts of the body if required. In the case of female patients, their male Mahram will be used as intermediaries
- During Ruqyah, patients may vomit and see visions among other reactions.

## **Jinn Catching**

This is when the Raqi uses a Third person known as the jinn catcher to capture the Jinn bothering the patient with the aim to convert and expel them for good.

During the Jinn Capture process the Raqi May:

- Ask you to recite Ayat ul Kursi
- Tap or press certain parts of the patient's body. In the case of female patients, their male Mahram will be used as intermediaries
- Occasionally ask you how you feel during the capture process

During Jinn Catching, patients may vomit and see visions among other reactions.

## **Hijama**

Our Hijama service aims at aiding the removal of harmful toxins, Sihr and Jinns from your body and to relieve muscle stress at the hands of our qualified cupping (Hijama) practitioner.

During the Hijama the Hajm (Male or Female practitioner) may:

- Ask you to remove some clothing
- Use disposable plastic cups placed on specific areas of the body
- Make light incisions to the surface of the skin, often described as small scratches or a tickling sensation
- Small amount of blood containing harmful toxins may be released out of the body and into the cups

## **Psychotherapy**

This is a mental technique which permits to relieve the patient from the sufferings he/she lived. When we experience something painful, it stays within us. It gives us negative feelings and abnormal reactions. Psychotherapy assists to remove these things which damage the person.

During Psychotherapy, the Raqi may do the following:

- Ask you to close your eyes
- Ask you to recall memories and past traumas
- Occasionally ask if there is any pain in the body
- Ask you to repeat certain emotions in an audible tone

## **Treatment Plan**

Finally, you will be set a treatment plan which will be tailored towards the affliction you have been diagnosed with, below are things to expect with the treatment plan:

- Senna leaves for ingested Magic
- Bottle of olive oil to massage the body
- A treatment plan document
- Specific herbs related to your sickness
- Instructions on specific verses to recite
